

## GARY BACK FROM EUROPE; TALKS OF STEEL INDUSTRY

Brings Data on Reconstruction Work Abroad to be Laid Before Associates

NEW YORK, Oct. 4.—Elbert H. Gary, head of the United States Steel corporation, returned from a European vacation trip, yesterday, on the steamer LaFrance, bringing data on reconstruction work in France and Belgium, which he said, would be given to his organization and to the Iron and Steel Institute in their next meetings. With Mr. Gary was his wife, who accompanied him on a tour through Spain, France and Belgium.

Mr. Gary said the information he obtained was of great interest to the steel industry. He would make no comment on the labor situation in Europe.

"From my information," Mr. Gary said, "I consider the steel industry in a healthy condition, although there has been a noticeable diminution in volume and a decrease in prices. So far as our corporation is concerned, conditions are perfectly satisfactory. Our policy is to keep prices from going too high or too low."

He said he hoped the steel price would not be affected to a great extent by the freight rate increase.

pected to go before the grand jury here today when it resumes its probe into baseball dishonesty.

"Kid" Gleason, manager of the Chicago White Sox, will be questioned concerning reports that players under his supervision have been involved in crooked playing on the diamond during the season just closed.

John McGraw, of the New York Giants will appear and will bring with him Fred Tenney, Benny Kauff and Art Fletcher, shortstop for the Phillies, but formerly a Giants player. Tenney, Kauff and Fletcher are expected to tell the grand jury regarding offers, which have been made to them to "throw" ball games for the benefit of gamblers.

Hugh Jennings, of the Detroit Tigers, will be asked concerning gambling on baseball in Detroit, where much money is said to have been wagered on a recent game between the Chicago Cubs and Philadelphia. It is said the "tip" was out that Philadelphia was to win.

## WRECK ON SOUTH SHORE

Several persons had a miraculous escape with their lives and the station of the South Shore Electric line in Gary was wrecked this morning as a result of an accident which will probably result in at least of something like \$25,000.

A string of eight passenger coaches which was being switched into a siding in the yards, crashed into and carried away a massive bumper, hurling the end of the first car over the platform and caving in the west end of the brick station. The car wedged itself into the end of the station a distance of six or eight feet.

Two lone passengers in the waiting room ran to safety only in the nick of time. Had they been sitting in the seats on the west of the station they would have been caught in the crash and buried alive with the falling brick and side walk. A lady ticket agent in her cage in the center of the station was almost paralyzed with fear. The motorman, Fred Hohn, jumped for his life at the time of the crash and not a person was injured in the accident.

According to the statement of Motorman Hohn following the crash, he lost control of the car. That he was backing into the siding or switch at a high rate of speed is evident. Ordinarily the bumper would bring a car or string of cars to a stop, but this compact was so great that it tore away the bumper and the car jumped over the platform and into the station. Four or five other cars buckled up almost wrecking them. The west end of the station was demolished. Officials of the line promised a thorough investigation this morning.

## ASQUITH WRITES FOR IRISH INDEPENDENCE

Wants Britain to Meet and Satisfy the Irish Aspirations

LONDON, Oct. 5.—Terence MacSwiney, lord mayor of Cork, was still alive and conscious upon the fifth-fourth day of his hunger strike today. He was so weak he could barely move in his bed.

Former Premier Asquith in a letter to The Times calls upon Great Britain to give Ireland her independence.

"I am not alarmed by the spectre of an Irish republic," said the former premier. "Now do not long fight for phrases, but for realities."

"The aggressive, but impotent policy towards Ireland has reached a fitting climax in an unexampled campaign for which the government must bear the responsibility of military and police reprisals. Two conditions govern and limit the solution:

"1. The Irish should be made to believe so far as Great Britain is concerned what is offered comes from an honest and responsible source.

"2. We should, after making allowance for the provisional abolition of a genuine local minority meet and satisfy Irish aspirations."

"Nothing will fulfill the second clause but the bestowal of a status of autonomous dominion rule in the fullest and widest sense."

The ex-premier declares that the urgency of the Irish situation demands an immediate solution and calls for an administration "backed by the power of the sympathetic acquiescence of the Irish people."

## STONEBRAKER CASE IS DECIDED

After spending a day and a half in hearing the testimony of numerous witnesses, Judge Hardy today in Room 3 of the Hammond superior court found against Roy Stonebraker in his habeas corpus proceedings against Mr. and Mrs. Fred Hopp of Bensenville for possession of his three-year-old daughter.

Stonebraker's wife died two years ago and after keeping the home for a while he placed the children in different families. He is now living with a brother and has decided to take the youngest child away from Mr. and Mrs. Hopp with whom she had been living. The Hoppes objected and trouble followed. It finally resulted in the habeas corpus proceedings. The court, basing his decision on what he considered the best interests of the child, ruled today that she should remain with the Hoppes.

Experienced Mothers know the wisdom of assisting nature before Baby's coming

It is natural to think of the expectant mother's influence upon the unborn babe. Her food, her habits, her hygiene, and even the condition of her mind, all have a part in determining the well-being or ill-being of her infant before birth.

No woman awaiting the joys of coming motherhood should allow the days to pass without giving nature a helping hand—because the conditions of pending motherhood, existing as they do, over a protracted period of months, create almost a new state of being for a woman.

WARNING: Avoid using plain oils, greases and substitutes—they act only on the skin and may cause harm without doing good.
